### Grüezi

Good taste has many facets. The Swiss Design & Lifestyle Hotels show all of them. From their often unusual architecture to their special locations and creative drive – even in the kitchen. Whether stylish townhouse, Alpine chic in the heart of a mountain village or a former industrial site, Design & Lifestyle Hotels are located throughout Switzerland. While some of them are secret tips, others are well-known even outside Switzerland. But each of them is worth a visit.

We wish you an unforgettable holiday at the Design & Lifestyle Hotels of Switzerland.

#### Welcome to the Design & Lifestyle Hotels

Innovative architecture, visionary design and close attention to detail – the Swiss Design & Lifestyle Hotels have many facets. And one thing in common: whether in the mountains or an urban setting, all hotels have brilliant design concepts. This is true of the new Bürgenstock Hotel & Alpine Spa.

Arriving at this hotel, which is the heart of the Bürgenstock Resort, is already a highlight: the Bürgenstock railway travels right inside the impressive building, which stands on a glass base. The building and the interior design are based on scenes from famous films.

Good taste at the Design & Lifestyle Hotels is evident not only in the design, but also in the food that is served. The contemporary dishes are a feast for the eyes too.

### What is the design concept behind the Bürgenstock Hotel & Alpine Spa?

The hotel stands in a legendary location with an incredible view. We wanted to celebrate this in every detail.

Robert Herr General Manager Bürgenstock Hotel & Alpine Spa

### How does the hotel fit into the overall concept of the Bürgenstock Resort?

The hotel with the upper station and lively piazza is the centre of the resort, connecting the historic Palace Hotel with the Bürgenstock Alpine Spa.

#### What guests are you hoping to reach?

The resort is not just a place for the elite. It is open to everyone. For example, we have guests who come just for the day to enjoy a coffee on our large terrace with a view of the lake.

#### A beautiful place.

To be accepted into the exclusive circle of Swiss Design & Lifestyle Hotels, the hotels must meet a number of criteria. The rooms are pleasing to the eye without sacrificing functionality, and the service is just as excellent as the aesthetics. High-quality food and often a unique location round off the experience in style.

Perfection down to the smallest detail – guests at the **Tralala Hotel** in Montreux expect no less.

Hospitality combined with environmental protection is the concept behind the **Whitepod Eco-Luxury Hotel & Alpine Experience** in Valais, which was built using natural materials from the outer shell to the furnishings.

Architecture that blends into the mountain environment of Valais, but on closer inspection also features contemporary details is what makes the **W Verbier hotel** special.

In the **Hotel Donatz**Samedan the creative drive is everywhere, even in the kitchen: here you will find contemporary dining.

#### Checked and recommended

These Design & Lifestyle Hotels, tested by hotelleriesuisse, all fulfill criteria including:

Strong aesthetic appeal without neglecting functionality

Highest quality of architecture, facilities and services

Design concept includes all aspects of guests' experience

Cuisine reflects calibre of design concept

Design incorporates impressive attention to detail
