The City of Zurich

Zurich is known for its annual flower festival on the shores of the Zürichsee Lake. Damaged by the bombs of World War II, the city has been rebuilt in such a way that the old town, with the Gothic-style Zürich Minster (Zürich Cathedral), has been preserved. A walk through the narrow streets of the Old Town is a journey through centuries. At the Flower Clock on Käfigturm, the world’s largest flower clock is on display.
