The host’s secret tips

Welcome to the Swiss Bike Hotels

Get active and moving on cycling holidays in certified Swiss Bike Hotels: the hosts know the best local routes, there are in-house workshops available, and the trails usually start right outside the hotel’s front door. The traditional Hotel Kirchbühl in Grindelwald offers all this along with cosy charm and magnificent views.

Christian Brawand, the fourth-generation host of the hotel, and his family are passionate about cycling. As a mountain rescuer, he also knows the region inside out. Together with Alex, a trained mountain bike guide, they reveal their secret tips according to each guest’s level. This ensures that every journey is a perfect experience. After a full day of riding, the terrace of this four-star hotel with a family atmosphere becomes a popular meeting point for all the cyclists. Wondering what they have to talk about? Of course: it’s all about the next ride and the adrenaline rush that it will bring.

You love cycling yourself. Which trail is your favourite?
The region around the Bachalpsee with its mountain lakes can be reached directly from our hotel via First and Grosse Scheidegg. One highlight is the descent of over 1,000 metres in altitude.

Bike trails are always changing, what’s new?
The local youth team has revamped the Gletschersand site, which is now a cool meeting point for enthusiastic cyclists.

What’s the perfect way to relax and recover after a ride?
Ideally, it’s with a piece of homemade fruit cake from our cake buffet outside on the green garden terrace. Of course, you can also relax in the wellness area.
Everything runs smoothly here

People feel at home in places where they are understood, which is why cycling enthusiasts like staying at the Swiss Bike Hotels. They know their hosts share their passion for bikes and enjoy taking care of all the practical aspects of their cycling holiday: from laundry service for the guests’ cycling gear to having lunch bags ready and supplying them with detailed maps. The only thing guests have to do themselves is to pedal.

The Hôtel Bellerive in Lausanne’s city centre promises wonderful rides around Lake Geneva: in addition, the hotel also has its own wellness and fitness facilities.

Cyclists wanting to conquer the Alpine Bike Route No. 1 on two wheels should recharge their batteries at the fourth stage at the pretty Hotel Post in Bivio. The charming hotel is also the ideal base for rides in Parc Ela.
Facilities equal to those of a professional bike mechanic: the rustic **Sporthotel Eienwäldli** with its wellness facility has its own professional bike repair shop. So you can optimally adjust your bike to the imposing altitude trails around Engelberg.

The newly opened **Hotel & Lounge Lago Maggiore** with its professional bike washing station is situated right on the lake promenade.

Bschorle

A refreshing delight with alcohol-free Appenzeller Bier and the juice of 28 varieties of apple and pear from high-stem trees of the Oberegg region.

APPENZELLER BIER
Conrad Glassey, Head of Product Management at the Swiss bicycle manufacturer BMC, can make out the perfect road surface from a kilometre away. “Sometimes I think that we’re a little spoiled in Switzerland. Even the smallest dirt road is as smooth as an airport runway. But thanks to the flexibility of the Roadmachine, I have the luxury of taking this feeling with me wherever I go.”

The powerful all-rounder for cycling with innovative technology features is the perfect fit for this athlete, who also rides on roads that aren’t as well maintained.

Travelling, friends and family are three important aspects of Conrad’s life, and all of them can be wonderfully combined with this sport. “My rides are social and often include a coffee break, but always some challenging climbs too.” He smiles and adds: “Most of the time, my competitive nature kicks in and I want to come in first place.”

With the Roadmachine, every road is the right choice.

Army bike 05
Swiss army bikes are legendary. Back in 1891, a cycling regiment was founded, but until 1904 soldiers had to bring their own bikes. In 2013, the cycling troop was discontinued as part of an army reform, but Swiss civilians continue to value the indestructible military bike. schweizer-militärvelo.ch
